Vidya kadakol

Bengaluru , India

9353974275 vidyakadakol4887@gmail.com Linkedin.com/in/vidya-kadakol

Education

Sharnbasva University **June. 2020 – May 2024**

Bachelor of Technology in Electronics and Commuinaction Engineering (81.42%) Kalaburagi , Karnataka

Experience

Bharat Electronics limited **Oct 2024 – Oct 2025**

Graduated Engineering Trainee Bengaluru ,Karntaka

- Involved in design , tesing and integration of defense electronic systems .
- Supporting Electronic Warfare and avionics projects through hardware and system testing.

Technofly Solutions Pvt. Ltd. **Feb 2024 – May 2024**

Embedded Engineer Intern Bengaluru , Karnataka

- Worked on Arduino, STM32, Raspberry Pi platforms with Embedded C.
- Debugged code in C and C++ for real-time embedded systems, optimizing for performance and reliability.
- Developed and debugged firmware using UART, SPI, I2C for sensor integration..

Technical Projects

AI – based Nurse Robot| Robotics, Arduino , C **May 2024**

- Developed an AI -based nurse robot using Raspberry pi and Arduino for patient care automation.
- Learned basics of robotics, embedded coding, and mechanical design.
- Integrated sensors and implemented real time vitals tracking with cloud data logging.
- Programmed autonomous navigation and obstacle avoidance using ultrasonic sensors and slam algorithms.

Data Acquisition system | LPC2129 , C , 8051, ADC **March 2025**

- Developed a data acquisition system using LPC2129 and 8051 microcontrollers to monitor temperature, light, and potentiometer data.
- Integrated sensors with microcontrollers using ADC and serial communication protocols for accurate data capture.

Technical Skills

- **Languages** : Basic Python , C ,Embedded C
- **Operating system :** linux , windows
- **Protocols :** UART , I2c, CAN
- **Tools :**,keil version , Arduino IDE , ubuntu , SAP(MM).

Certification/ Extracurricular

Embedded Systems Certification

NBCE Skill Development – Pursuit Soft Skill Training Program

Python and Artifical Intelligence Certification
